

LOCO 555

PRODUCT DATA SHEET

Premium, Water Based, Quick Break, Caustic Free Detergent Degreaser.

Use – Loco 555 is designed for exterior cleaning of diesel locomotives, EMU, DMU, carriages and general workshop floor cleaning operations.

PRODUCT INFORMATION

Loco 555 is a premium water based, alkaline detergent Degreaser primarily designed for exterior cleaning of diesel Locomotives, EMI, DMU, carriages and workshop floors. Loco 555 can be sprayed, foamed and or broomed onto the work surface allowed a short dwell time then rinsed clean with high-pressure water. Loco 555 is Quick Break and compatible with modern effluent equipment, Non-Hazardous for end-user safety and is effective against a wide range of soils including oil, light grease, stack carbon and general grime.

RECOMMENDED DILUTIONS

Diesel Locomotive - 20% - 50% concentration
Carriages - EMU, DMU - 10% - 50% concentration
Workshop Floors - 10% - 25% concentration
NB

Recommended dilutions can and will vary according to the degree of soiling, for best results allow a 5 minute dwell time, agitate and rinse clean using high pressure water.

TYPICAL PROPERTIES
